

# Wienerberger not affected by Russian gas supply stop

## > Production in Bulgaria and Poland continues unabated

**Vienna, April 27, 2022**– Despite the Russian gas supply freeze in Bulgaria and Poland, production at Wienerberger is currently continuing unabated at all European plants. Wienerberger is well prepared for this situation thanks to a forward-looking energy procurement policy, has already purchased around 90% of the gas required this year, has contingency plans in place in the respective countries and is in contact with governments and local planning authorities.
